Aquatic Science and Technology Graduate talks

Are you wondering about the life after graduation? Let the experts – former Aquatic Science and Technology students – tell you about it

In this series of talks, graduates with different specializations from the Master’s programme in Aquatic Science and Technology will tell you about their jobs, the competences that they need in their professional life and in general give inspiration for the life after graduation.

The talks will be online each Wednesday in November and December 2020 at 12-13. They will last ca. 30 min. with max. 30 min. for questions and will be in English. The talks are open for all students that are interested in career possibilities within aquatic science and technology.

Programme

4.11. Mafalda Figueiras Guilherme (Trial Coordinator; BioMar), graduated in 2017. Mafalda will talk about her experience before, during and after she did her Master’s in Aquatic Science and Technology and how she designed her Master’s programme.

11.11. Søren Enghoff (Senior Specialist; Ørsted), graduated in 2014. Aquatic Science and Technology related disciplines relevant for the offshore wind sector are plenty. Søren will talk about how he got into Ørsted, and what opportunities and roles he has been exposed to the last six years. He will go on and explain how Ørsted works with underwater noise in relation to marine life.

18.11. Kristian Maar (PhD student; DTU Aqua), graduated in 2019. Kristian will talk about the life as a PhD student at DTU Aqua, and the reasons why he chose to pursue a PhD. He will also talk about what the future possibilities and advantages of a PhD is from his perspective and how to find out if a PhD is the right for you. For those that are interested he will offer some suggestions and advice about how to maximize your chances of getting a PhD. Finally, he will talk briefly about his own project, and present some of the other PhD projects and research areas at DTU.
25.11. **Alondra Sofia Rodriguez** (Science Programme Supporting Officer, ICES – International Council for the Exploration of the Sea) graduated in 2016. *Alondra will give an introduction to the work of ICES and share her experience in the Danish job market as well as some of the struggles a graduate can encounter, particularly foreign graduates. Furthermore, she will give a few pointers on strategies that can help graduate students navigate in the job market in Denmark.*

2.12. **Aleix Pinyol Gallemi** (Project manager and consultant; Pisco group), graduated in 2016. *Aleix will talk about the Pisco Group and his work at Pisco and the relation of the master program and the competences that he needs in his daily work, and give tips and tricks for your future career.*

9.12. **Julie Olivia Davies** (Otolith Laboratory and Quality Assurance Coordinator; DTU Aqua), graduated in 2012. *Julie will talk about working with otoliths at DTU Aqua – developing methods and tools to support standardization at DTU Aqua and internationally within the ICES system.*

**Welcome!**
